RE: Emergency Request for Immediate Civil Rights Intervention — Myself and My Disabled Child Have Been Illegally Targeted, Displaced, and Silenced

Dear Secretary Kennedy,

My name is John R. Fouts, a disabled father and former business owner who has become an unintentional whistleblower — and now, a victim of systemic retaliation, digital erasure, and life-threatening rights violations under the ADA, FOIA, HIPAA, and Section 504.

I am writing this as an open letter because every other channel has either blocked, buried, or intercepted my previous attempts for help — including court filings, HHS submissions, FOIA requests, and mandated reporting attempts.

My child and I are now unlawfully displaced, our medical care sabotaged, and our digital identities tampered with — while we remain under active civil, constitutional, and criminal attack by coordinated bad actors within agencies like:

- The Executive Office for U.S. Attorneys
- HHS OCR, CMS, OMHA
- HUD, FHEO, LMHA, and PIH

Despite filing official complaints, submitting medical documentation, and even filing federal lawsuits, we have received no lawful responses — only suppression, retaliation, and erasure.

### **The Violations Include:**

- Unlawful eviction without cause while holding a federally protected Mainstream Housing Voucher, and with protections under ADA, VAWA, 1915c, 504, and Olmstead Act
- Documented denial of medically necessary prescriptions (including medically necessary dosage of Schedule II treatment for documented autonomic disorder)
- Refusal to respond to valid FOIA requests (even for our own medical and educational records)
- Tampering with federal case filings, USPS mail, PACER access, and MyChart logs

- Total lack of due process across multiple jurisdictions

My child has disabilities under IDEA and Section 504. I am my child's primary legal guardian taking care of most of my kid's medical needs, school needs, etc, however, do have split custody. We have been cut off from SNAP, medical care, education, and housing — for exposing civil rights failures and refusals and filing federal complaints.

---

I am begging for immediate intervention from someone with integrity and power to act. You have the power to help us, investigate the bad actors involved, and refer them for criminal prosecution and other civil, constitutional, and tort violations.

I have documentation archived up until I was also blocked from uploading new files to archive.org:

 <https://archive.org/details/@jfouts1979>

(Additional legal and medical files available upon request)

---

I am not a criminal. I am a disabled father trying to keep myself and my special needs child alive and safe. I believe the people suppressing our records and rights are doing so intentionally, knowing that they are pushing us toward collapse or death. I believe this can be easily proven in court if we are ever granted fair and equitable access to justice.

Please help. Or please help me reach someone who will.

With sincerity and urgency,

/s/ John R. Fouts, MBA
